

AlphaSight Capital — Custom Telegram Bot

Full Build Specification · For Emerald · June 2026 · v3

Overview & Architecture

Custom Telegram bot, raw code, deployed on GitHub + Render. Botfather token. Two primary conversion paths with a persistent 4-button menu always visible. Format strategy: voice notes for personal/emotional moments, video for trust and education, text for functional steps.

CREDENTIALS NEEDED: Cellxpert Affiliate ID: 35089 · Cellxpert API Key: [Tobi to provide from Cellxpert portal → API Settings] · Telegram Bot Token: [from Botfather] · MarketsVox affiliate link: <https://affiliate.marketsvox.com/visit/?bta=35089&brand=marketsvox&campaign=2D438D39-442A-4F11-BB37-7FE0F43C537A> · Onboarding form: <https://alphasightcapital.framer.website/onboarding> · Charles handle: t.me/AlphaSightGlobal

Persistent Menu — Always Visible

These four buttons must be visible at ALL times at the bottom of the chat, regardless of where the user is in the flow. This is the most critical structural element of the build.

Get Started → jumps to or resumes the conversion flow from the user's last position

See How It Works → opens the short video library

FAQ → opens the video FAQ menu directly from anywhere

Speak to Charles → opens t.me/AlphaSightGlobal

Brilliant, most of our members started with zero experience and that's exactly who the system is built for. You don't need to know anything about trading to see great results. 🙌

So here's how it works. 🗣️

We trade forex on our own accounts every day. Our software automatically mirrors every trade directly to yours in real time, completely hands-free. No experience needed, no decisions to make.

Your money stays in your own trading account the whole time. Only you have access to it, we physically cannot touch it.

We're running a 3-month free trial right now, you make real returns for 3 months before paying anything. After that it's just \$29.99 a month, easily covered by your returns. Cancel anytime.

Would you be happy to continue after the trial if you're seeing consistent results?

 **Yes, happy to continue**

Even better, having a bit of experience means you'll understand straight away how this works and why the results are so consistent. 🙌

S3**Country Confirmation****TEXT MESSAGE**

Quick one, what country are you based in? Makes a difference for the deposit instructions I'll send you. 🌐

 **Australia** **Europe** **New Zealand** **Other**

Store country on user profile. Used to route AUS vs non-AUS deposit instructions at S5.

AUS / NZ only – Chris Griffin introduction (fires immediately after Australia or New Zealand is selected)

Only fires for Australia and New Zealand selections. Does not fire for Europe or Other. Advance to S4 after they tap Continue.

TEXT MESSAGE

One thing worth knowing, we have a dedicated Australian rep, Chris Griffin, who's been investing with us for a while and even brought his sons on board. If you'd like to speak to a fellow Australian before getting started, Chris is always happy to chat. 🇦🇺

S4**Capital Gate****TEXT MESSAGE**

Before I send you the account details, what sort of starting amount did you have in mind? 👉

\$500 – \$1,000	\$1,000 – \$5,000	\$5,000+
-----------------	-------------------	----------

If user types below \$500 / \$800 AUD: 'Our minimum is \$500 USD / \$800 AUD — that's the floor for the system to trade properly. Does that work for you?' If still below → politely close.

Tier Response Cards — flow directly to S5, no extra confirmation button

\$500 – \$1,000:

Good shout. Most people start here to see month one, then add more once they've seen the results. 🙌

\$1,000 – \$5,000:

Nice one. At this level the system has more room to work, you'll see stronger results from day one. 🙌

\$5,000+:

Love that. At this level the system is running at full capacity from day one, you're going to see great results. 🙌

Tier card sends immediately after button tap. No additional confirmation button. Flow advances straight to S5.

Important before you deposit — Australian banks almost always block the first card attempt. Standard banking policy for international brokers, nothing to do with MarketsVox. Every single AUS member hits this.

Best options:

- Skrill (recommended) — free account, 5 minutes, no issues at all
- Bank wire — always works, 1–2 days
- Cryptocurrency — fast if you have it

Once you've opened the account, let me know 📌

UK / Europe / Other version:

affiliateid: 35089, x-api-key: [key] · Email in generic1 field · Empty array = not found · Whitelist server
IP in Cellxpert API Settings before build.*

API Outcome 1 — Confirmed ✓

You're confirmed on the system 🙌

One last step, let's get your MT5 trading account set up so we can connect everything. 📌

→ *Advance to S8*

API Outcome 2 — Not Found, First Attempt 🚫

Hmm, we couldn't find a registration under that email. Could just be a typo, worth double checking.

Want to try a different email or speak to Charles directly? 📌

 **Try a different email**

 **Speak to Charles**

Try again → loop back, re-run API. Second failure → Outcome 3. No third attempt.

API Outcome 3 — Not Found, Second Attempt 🚫

No worries at all, Charles will get you sorted straight away. Tap below 📌

S8 CENT Account Setup

CENT account setup video not yet recorded. Text-only until Charles records it. When ready: send video first, then text below. 'I have a question' here routes directly to Charles — not FAQ. They are at the final step.

TEXT MESSAGE

Brilliant, nearly there 🙌

Last step before you're fully connected, set up your MT5 CENT trading account inside MarketsVox. Takes about 2 minutes 📌

Steps:

1. Log into your MarketsVox account
2. Go to Trading Accounts → New Real

3. Select Standard 500
4. Set your profile password
5. Hit Submit
6. Check your email — MT5 credentials will arrive there

Once you've transferred your funds to the CENT account, tap below 📌

✅ **Done, funds transferred**

💬 **I have a question**

I have a question → t.me/AlphaSightGlobal directly. NUDGE TIMER: if 'Done, funds transferred' not tapped within 60 minutes, fire Nudge 4.

S9 Onboarding — Flow Complete ✅

🗣️ VOICE NOTE FROM Charles

"Welcome to AlphaSight Capital, we're genuinely so glad to have you on board. You've made a great decision and you're going to love what you see. I'll be in touch. 🎉"

💬 TEXT MESSAGE

Welcome to the team 🎉

One last step, please fill in your details below so we can connect your account to the system:

📄 <https://alphasightcapital.framer.website/onboarding>

Takes about 2 minutes. Once you submit you'll be connected with our support team who will get everything set up for you. 🚀

On completion: tag user as CONVERTED. Start post-onboarding drip sequence Days 0–7. See Drip Sequence section.

PATH 2 — SEE HOW IT WORKS

Short video library — 8 clips, each 1–3 minutes. Self-directed, no forced order. Each video ends with: ▶ Next Video ·  I'm Ready — Get Started · ⬅ Back to Menu. Tapping I'm Ready at any point enters the Get Started path at S3 — pitch is skipped since they've already seen the content.

Nudge Sequences

All nudges built natively into the bot. Five types — each targets a different psychological moment. Voice notes for personal/emotional nudges. Text for the social proof nudge. Never more than one nudge per trigger point. If no reply after the nudge — leave it. No follow-up to the follow-up.

Nudge 1 — Personal Check-in

TRIGGER: 45 MINUTES AFTER S1, NO BUTTON TAPPED

FORMAT: VOICE NOTE

"Hey, it's Charles. I just wanted to let you know I'm online if you have any questions at all. No rush, happy to help whenever you're ready 🙌"

Nudge 2 — Objection Anticipator

TRIGGER: 60 MINUTES AFTER S5 BROKER LINK, 'ACCOUNT OPENED' NOT TAPPED

FORMAT: VOICE NOTE — AUS AND NON-AUS VERSIONS

Australia:

"Hey, just checking in, did you hit a snag with the deposit? Australian banks almost always block the first card attempt, it's standard banking policy, nothing to do with MarketsVox. Every single AUS member hits this. Just use Skrill free account takes about five minutes. Let me know if you need help 👍"

UK / Europe / Other:

"Hey, just checking in, did you manage to get the account opened okay? If you hit any issues at all just let me know, happy to walk you through it 🙌"

Nudge 3 — Social Proof (Chris Griffin)

TRIGGER: 60 MINUTES AFTER S6 FUNDING VIDEO, 'I'VE MADE MY DEPOSIT' NOT TAPPED

FORMAT: VIDEO (CHRIS TESTIMONIAL) + TEXT

Send Chris Griffin's video testimonial first, then the text below.

While you're getting sorted this is Chris, our Australian rep. He started exactly where you are.
👉

Chris has been investing with us for a while, referred both of his sons, and is now part of the team helping Australian and New Zealand members get the most out of the system.

Once your deposit is in we can get you started 🙌

Nudge 4 — Specific Check-in (Final Step)

TRIGGER: 60 MINUTES AFTER S8 CENT INSTRUCTIONS, 'DONE, FUNDS TRANSFERRED' NOT TAPPED

FORMAT: VOICE NOTE

"Hey, just checking in on the last step. Did you manage to get the MT5 account set up okay? You're literally one tap away from being fully connected. Any issues just let me know 🙄"

Nudge 5 — Re-entry (24hr silence)

TRIGGER: 24 HOURS OF NO ACTION ANYWHERE IN THE FLOW

FORMAT: VOICE NOTE — SOFTEST POSSIBLE, NO PRESSURE

"Hey, Charles here, just wanted to drop you a message personally. I know life gets busy. The door's always open here whenever you're ready, even if that's weeks from now. No rush at all
👋"

🚀 Get Started

After Nudge 5 — no further automated messages. Door stays open via persistent menu only.

Video FAQ Menu

Accessible from the persistent menu (? FAQ) at all times, and from 'I have a question' buttons throughout the flow. Each button plays the relevant video clip. After every video: Back to FAQ and I'm Ready — Get Started buttons. Charles button persistent at the bottom.

Got a question? Pick from the most common ones below — there's a short video for each one. 

 What returns can I expect?	 Is my money safe?
 Can I withdraw anytime?	 How does the trial work?
 Do I need experience?	 What's the minimum?
 Is it a bot?	 What do you trade?
 Can I use a funded account?	 How do lot sizes work?

Charles Escalation Triggers

Bot hands off to Charles via t.me/AlphaSightGlobal. Bot sends Charles a summary: prospect's country, stated amount, last step reached, reason for escalation. Charles should not need to re-read the thread.

Escalate to Charles immediately when:

- Broker regulation / Seychelles / ASIC challenge
- 'Is this a scam / how do I know it's real'
- Prospect wants to speak to an existing member
- Deposit problem not resolved by Skrill/wire guidance
- Question at CENT account setup stage (S8)
- Any unrecognised question the bot can't handle
- API check fails twice
- Nudge 5 fired and user re-engages — Charles handles personally from this point
